

## Member Testimonials

*"The Executive Council has allowed me to grow personally, professionally, and to increase my company's output through excellent input of my group. I would highly recommend it to every executive."*

Brian Holmes, **Columbia Plastics**

*"MEC has helped expand the planning process beyond that of our management team. This group has driven the planning process to all levels of the organization; it has helped us increase accountability, develop future management personnel, and better measure our successes."*

Dale Delmage, **Nylatech Inc.**

*"The Executive Council has proven to be very helpful. I have watched businesses completely turn around based on the advice provided by the MEC. We help each other with immediate issues and come prepared to discuss broad topics that are a concern to all of us."*

Ellen Flanders, **Imprint Plus**

*"Proving to be a valuable networking activity that grows in value as our group learns more about respective businesses and we come together to trust one another. This proves especially valuable to me as a business owner; the group acts as a source of ideas, a sounding board, and it holds me accountable for implementing the plans I put forward."*

Dan Sabourin, **ASI Plastics**

*"Once a month, I get advice from manufacturing CEO's who have made the mistakes I am trying to avoid. The MEC has reduced my consulting bills, increased my business acumen, and given me a group of friends who I can call on in my darkest hour. You can't afford not to join!"*

Ed Beange, **Hansen Industries Ltd.**

# MANUFACTURERS' EXECUTIVE COUNCIL

The MEC is an exclusive group of business owners and senior executives, who meet to:

- Share ideas
  - Learn from each other
  - Solve problems through peer group mentoring

## BENEFITS

- This unique forum uses a proven technique to **increase profitability and competitiveness** by drawing on the strengths of experienced and like-minded executives in a non-competitive environment.
- Help your company to **grow** by aligning yourself with a group of manufacturing leaders who can help to **sharpen your leadership and management skills**.
