

Certification Part One

CERTIFICATION PART ONE: GENERIC 2 DAYS \$432.00 member/\$480.00 non-member*

IAPA's WSIB-approved Certification Part One training is suitable for both the manufacturing and offices sectors. Same thorough content as IAPA's 3-day certification part one training, same end result: complying with the law. This 2-day version, developed by IAPA in partnership with Canadian Manufacturers & Exporters (CME), is a fast-paced course that is ideal for those who learn best in a lecture environment.

This course meets the WSIB standards for Part One Certification. Participants are required to complete an in-class written WSIB certification evaluation. We recommend that participants have a solid understanding of English.

This course can also be delivered on-site. See page 4 for details.

CERTIFICATION PART ONE: OFFICES 3 DAYS \$432.00 member/\$480.00 non-member*

This course addresses the fundamentals of occupational health and safety to help joint health and safety committee (JHSC) members and others working in offices in the manufacturing sector get certified. Complete with up-to-date case studies and legislation, key topics of this course include:

- > Health, safety and the law
- > Workplace safety
- > Workplace inspections
- > Joint health and safety committees
- > Workplace health
- > Accident investigations

This course meets the WSIB standards for Part One Certification. Participants are required to complete an in-class written WSIB certification evaluation. We recommend that participants have a solid understanding of English.

This course can also be delivered on-site. See page 4 for details.

Certification Part Two

CERTIFICATION PART TWO: AGRI-BUSINESS 1 DAY \$108.00 member/\$120.00 non-member*

This course helps joint health and safety committee (JHSC) members in the agri-business sector who have completed Certification Part One to complete Part Two. Participants will gain knowledge and understanding of common significant hazards found in agri-business and learn how to recognize, assess and control these hazards. Each self-standing module meets the WSIB standards for workplace-specific hazard training, and participants learn how to notify the WSIB to have their training recognized.

Three modules are covered in this training:

- > Confined spaces
- > Machine and equipment safety
- > Mechanical materials handling

This course can also be delivered on-site. See page 4 for details.

CERTIFICATION PART TWO: AGRI-BUSINESS 1 DAY												
Location	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Guelph			29									

This schedule is accurate at time of printing. For the most current information, please visit www.iapa.ca.

CERTIFICATION PART TWO: FOOD AND BEVERAGE 2 DAYS \$355.50 member/\$395.00 non-member*

This course helps joint health and safety committee (JHSC) members in the food and beverage sector who have completed Certification Part One to complete Part Two. Participants will gain knowledge and understanding of common significant hazards found in the food and beverage sector and learn how to recognize, assess and control these hazards. Each self-standing module meets the WSIB standards for workplace-specific hazard training.

Participants learn about:

- > Machine and equipment safety
- > Mechanical materials handling
- > Confined spaces
- > Repetitive strain injuries
- > Walking and working surfaces

This course can also be delivered on-site. See page 4 for details.

CERTIFICATION PART TWO: FOOD AND BEVERAGE 2 DAYS												
Location	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
CENTRAL REGION												
Mississauga		14-15		26-27		5-6			17-18		27-28

EASTERN REGION												
Ottawa					9-10							
WESTERN REGION												
Burlington										9-10		
Cambridge		8-9				12-13						
London						20-21						

This schedule is accurate at time of printing. For the most current information, please visit www.iapa.ca.

This program is endorsed by the Ontario Agri-Business Association and has been approved by the WSIB for the agri-business sector.

This program is endorsed by the Ontario Dairy Council, the Baking Association of Canada, the Ontario Independent Meat Processors, the Food and Consumer Products Manufacturers of Canada and the Canadian Snack Food Association and has been approved by the WSIB for the food and beverage sector.

It's About Making A Difference.

This program is endorsed by the Canadian Foundry Association and has been approved by the WSIB for the foundry sector.

Continued from page 9...

CERTIFICATION PART TWO: FOUNDRY 1 DAY \$247.50 member/\$275.00 non-member*

BCRSP has awarded 0.5 CMPs

This course helps joint health and safety committee (JHSC) members in the foundry sector who have completed Certification Part One to complete Part Two. Participants will gain knowledge and understanding of common significant hazards found in the foundry industry and learn how to recognize, assess and control these hazards.

Using the **Canadian Foundry Industry Guide** as a foundation (developed in partnership between the Canadian Foundry Association, IAPA and the WSIB), 4 modules are covered in this training: Recognizing, Assessing and Controlling Hazards; Machine and Equipment Safety; Molten Metal; and Ergonomics. Each self-standing module meets the WSIB standards for workplace-specific hazard training.

This course can also be delivered on-site. See page 4 for details.

CERTIFICATION PART TWO: FOUNDRY 1 DAY												
Location	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
WESTERN REGION												
Hamilton/Stoney Creek			6									19

This schedule is accurate at time of printing. For the most current information, please visit www.iapa.ca.

CERTIFICATION PART TWO: MANUFACTURING 2 DAYS \$355.50 member/\$395.00 non-member*

BCRSP has awarded 1.0 CMPs

This course helps joint health and safety committee (JHSC) members in the manufacturing sector who have completed Certification Part One to complete Part Two. Participants will learn about common manufacturing hazards and how these can be recognized, assessed and controlled. Topics include machine safety, chemical safety, ergonomics, mechanical materials handling, and walking and working surfaces.

Each self-standing module meets the standards set by the WSIB for workplace-specific hazard training.

This course can also be delivered on-site. See page 4 for details.

CERTIFICATION PART TWO: MANUFACTURING 2 DAYS
